## UNSAFE WATER ALERT

---

**Sundale Union School water is possibly contaminated  
with Total Coliform Bacteria**

---

### **DO NOT DRINK YOUR WATER**

**Failure to follow this advisory could result in illness.**

The Sundale Union School water system had total coliform positive bacteriological samples on August 11, 2023. The State Water Resources Control Board, Tulare County Health Department, and Sundale Union School Water System are advising staff, students, and visitors of Sundale Union School to **NOT USE THE TAP WATER FOR DRINKING AND COOKING UNTIL FURTHER NOTICE.**

#### **What should I do?**

- **DO NOT DRINK YOUR TAP WATER---USE ONLY BOTTLED WATER.** Bottled water should be used for all drinking (including baby formula and juice), brushing teeth, washing dishes, making ice and food preparation **until further notice.**
- **DO NOT TRY AND TREAT THE WATER YOURSELF.** Boiling, freezing, filtering, adding chlorine or other disinfectants, or letting water stand will not make the water safe.

**We will inform you when tests show that the water is safe again. We expect to resolve the problem within two weeks.**

For more information call:

Water Utility contact: Chase Quinn, Director of Operations, at (559) 804-6021

State Water Resources Control Board at: Tulare District Office at (559) 447-3300
