**Date Report Made Available to the Public:** November 30, 2021  
**Date Report Presented to the Board:** December 14, 2021

**DESCRIPTION OF THE TYPE AND AMOUNT OF THE FEE**

This District has levied school facilities fees pursuant to various resolutions, the most recent of which is dated March 24, 2020. These resolutions were adopted under the authority of Government Code Section 65995 for the purpose of funding the construction or reconstruction of school facilities.

The purpose of the fees imposed and collected on new residential, commercial and industrial development within the District is to fund additional school facilities required to serve the students of the District generated by that new development. There is a proportional, reasonable relationship between the new development upon which the fees are charged and the need for additional school facilities by reason of the fact that additional students will be generated by additional development within the District and the District does not have student capacity in the existing school facilities to accommodate these new students. The School Facilities Needs Assessment and Fee Justification Study dated February, 2020 establishes this relationship.

The amount collected by this District is \$ 4.08 per square foot of assessable space of residential construction; and \$0.66 per square foot of covered and enclosed space of commercial/industrial construction; but subject to the District's determination that a particular project is exempt from all or part of these fees.

Pursuant to Education Code Section 17623 and an agreement with the District(s) sharing territory with the District, generally only 66.67 % of the maximum fee specified above is distributed to this District.
