Model Policy:

<input checked="" type="checkbox"/> Alliance for Healthier Generation (AHG) recommended	<input checked="" type="checkbox"/> Sundale School Board requirements	<input type="checkbox"/> Other:
---	---	---------------------------------

Results:

WellSAT 3.0 122/126 School Assessment Tool Score 6/6 District tool

Policy Strengths (brief summary): All 6 standards are addressed in the policy, the process for reporting assessment results is clearly stated and a procedure is in place for evaluating policy and practice that provide the ability to make policy adjustments as needed to focus actions that will make a positive impact on student health and achievement.

Sundale Triennial Assessment Summary

Areas Needing Improvement (brief summary): NS2 USDA Smart Snack standards easily accessed in policy, PEPA8 further physical education training for physical education teachers.

Comments:

3. Monitoring Progress with meeting LSWP goals: (attach completed tools)

WellsAT 3.0 122/126 School Assessment Tool Score: 6/6

District tool

School Year	Successes (brief summary)	Areas Experiencing Barriers (brief summary)
1. 2018 - 2019	Afterschool Nutrition Curriculum was aligned to support classroom instruction, Student Leadership created our first USDA Smart Snacks Student Favorites List for School-wide use, Health and Wellness Webpage created for postings, English Learners Parent Nutrition Education Meetings were attended resulting in our first EL Wellness Committee member, All teachers participated in a piloting collaboration with Sundale School and the CA Dairy Council of the Online Nutrition Assessments, 5% growth school-wide on Nutrition Unit post assessment.	Buy in for EL/Bilingual parent groups
2. 2019 - 2020	Physical Education Binders created and made available for teacher checkout, District Level Wellness Plan Assessment and Summary for Triennial assessment created by Committee members. New CA Dairy Council Nutrition Unit online components and resources piloted for 3 rd grade. Average of 17% growth school-wide between Nutrition pre and post test scores.	Sequential Physical Education Curriculum accessible to all teachers and substitute teachers for check out. Barriers by school closure in March of 2019 - 2020 school year due to Covid 19 Restrictions.
3. 2020 - 2021	Healthy breakfast and lunch made available to students by pickup and drive through. Online Pre and posttests made it possible for students on distance learning to complete the assessment. Health and Wellness Committee members were successfully met through social distancing to use assessment tools to complete Triennial Assessment.	Covid 19 restrictions and barriers by school closures for Sundale from August through March of the 2020 – 2021.

Next Steps: Provide opportunities for teachers to update their physical education training, add additional wording to include USDA Smart Snack standards in the policy.
